GRAZING SCHEDULE

Pasture forms hard to reconcile with each other.

Most pastures used during critical periods most years. "Scheduled use does not appear to follow any plan. May be some improvement after 1986.

39. Effective system? Better options? ~~P~~ P F G E
Lots of repeat critical period use plus quite a bit of two cropping and even some triple cropping! Diagram looks like may have started with good concepts but then compromised them.

ACTUAL USE

40. Is system followed? ~~P~~ P F G E
General season somewhat followed but LOTS of use 2 and even 3 times as long as planned.
