B P ~~F~~ G E

38. Reasonable pasture move sequence?

B P ~~F~~ G E

39. Effective system? Better options?

B ~~P~~ F G E

at least double the flip-flop.

ACTUAL USE

40. Is system followed?

B ~~P~~ F G E

Several seasons somewhat followed but up to one month variations. Actual use may be somewhat better than scheduled, usually later turn-out. Due to some "Baldy Mtns." this may be higher elevations range which would make planned systems "B" instead of "P" and negate the indicated benefit from later than planned turn-out. What happened in '88?
